

Belfast Local Development Plan  
Draft Plan Strategy 2035  
MATTERS ARISING

Week 8 - 1<sup>st</sup> – 5<sup>th</sup> March 2021

---

**Date – Wednesday 3<sup>rd</sup> March 2021**

**Topic 25: Building Connected and Resilient Place – Transportation**

---

**Matter arising (MA010)**

Belfast City Council to provide a copy of the ‘Belfast Metropolitan Transport Study’

**Response:**

Dear Mr Bickerstaff

Please find appended the Matters Arising documentation discussed on Monday as part of the closing session.

There are three separate documents as detailed below:

1. A copy of the Belfast Metropolitan Transport Study webpage, digital filename “*Belfast Metropolitan Transport Study Webpage Dfl.pdf*”, (**Commission reference MA010.A**) including webpage address <https://www.infrastructure-ni.gov.uk/publications/belfast-metropolitan-transport-study>;
2. Belfast Metropolitan Transport Plan - Local Transport Study (web page document title): printed document title - “*Belfast Metropolitan Transport Plan, Transport Study, October 2020*”, (**Commission reference MA010.B**) digital filename “*bmtpl-local-transport-study-v2.pdf*”, published online 25<sup>th</sup> November 2020.
3. Annex D – Belfast Metropolitan Transport Study Modelling Report (web page document title): printed document title - “*Belfast Metropolitan Transport Study, Modelling Report, Dfl, May 2020*”, (**Commission reference MA010.C**) digital filename “*annex-d-belfast-metropolitan-transport-study-modelling-report.pdf*”, published online 25<sup>th</sup> November 2020.

There are three additional “Annex” documents on the Transport Study webpage that have not been appended with this email as they comprise local transport studies for three of the four surrounding council areas and were not directly referred to by the Department for Infrastructure participants.

The Commissioners are aware of the Council views in respect of the Transport Study following the discussions at the Session on Monday and from earlier discussions as part of the formal Examination process. You may also wish to note that the May 2019 document, referred to as “Guidance on the preparation of LDP policies for transport”, has not been included with this email following the confirmation from the Commission that this would not be required.

Regards

Keith
