30 May 2025

Dear Programme Officer

### **Re: Curraghinalt Project (Dalradian) - Public Local Inquiry – Transboundary Consultation**

Further to the Department's last correspondence of 20 May 2025 regarding the above, please now find attached pdfs of transboundary representations received which have each been given a specific TBA number reference. As requested, a spreadsheet has been provided listing the corresponding TBA numbers in the first column, in addition to names and addresses (where given) in separate columns to assist you in your administrative process and mitigate any further delay.

Please note that there are 03 no. representations (TBA0110, TBA1061 & TBA1602) that referred to attachments in the email received however these attachments were not included with the emails. The Department has written to the senders to ask that they please resend their representation in order that all issues they raise can be viewed and therefore considered. Once these returns are made, the Department will forward copies to the Commission. The names and addresses of the three individuals

E-mail: [planning@infrastructure-ni.gov.uk](mailto:planning@infrastructure-ni.gov.uk)

Website: [www.infrastructure-ni.gov.uk/topics/planning](http://www.infrastructure-ni.gov.uk/topics/planning)

are however captured in the spreadsheet list provided to avoid any impediment, should you wish to correspond with 3rd parties who participated in the transboundary consultation undertaken.

It should also be noted that there are TBA reference number gaps in the numbering chronology in the pdfs. This is a result of erroneous numbering. Therefore the numbers listed below have no associated representation.

- TBA 0049
- TBA 0090
- TBA 0118
- TBA 1035
- TBA 1038
- TBA 1040
- TBA 1073
- TBA 1182
- TBA 1218
- TBA 1410
- TBA 1411

Please note that further to your additional request for 03 no. x hard copies of all representations received, printing is ongoing, and the Department will furnish these copies to your office in due course. In addition, as previously advised, the Department also intend to provide a submission highlighting issues raised in the representations.

I trust the foregoing is helpful and explanatory and that the electronic submission of the representations and corresponding spreadsheet of names and addresses will enable the Commission to now proceed to arrange the further timetabling of the public local inquiry. The Department of Infrastructure is eager that the hearing sessions can proceed without any unnecessary delay in the interests of all parties involved, and in the wider public interest.

In addition, please find enclosed the response from Donegal County Council in accordance with Section 174 of the Planning and Development Act 2000 (as amended) on potential transboundary effects associated with the proposed Dalradian Mining Operation and associated developments including provision of 33kV power lines (Reference nos. LA10/2017/1249/F, LA10/2019/1386/F, LA11/2019/1000/F) following formal Transboundary Public Notice Notification, has been received. It can also be viewed on the link below.
